

ANTERIOR ADVANTAGE & OPERATING ROOM EFFICIENCY IN THA

(TOTAL HIP ARTHROPLASTY)

DATE: 13th MAY 2023 | VENUE: MIOT INTERNATIONAL, CHENNAI, INDIA.

Dear friend / colleague,

I am honoured to invite you to attend our **Direct Anterior Approach Clinical Outcomes and Operating Room Efficiency** course on May 13, 2023. As a renowned leader in medical care, we believe in sharing knowledge and experiences that can help improve the quality of healthcare across the globe. We are privileged to have a distinguished faculty member, Dr. Ghrayeb Nabil from Israel.

Together, we will share our experience and expertise on the Direct Anterior Approach (DAA) and hip replacement when compared to the posterior approach, highlighting the simplicity and efficiency of DAA. It is an excellent opportunity to learn and understand DAA's benefits, which include lesser muscle damage and blood loss, less pain after surgery, a shorter hospital stay, and faster recovery time. The course will showcase live surgeries, didactic sessions, and virtual reality experiences on DAA.

I eagerly look forward to your active participation in this course.

With warm regards,

Dr. Prithvi Mohandas

Managing Director, MIOT International

Date: 13th May 2023

Venue: Retreat Auditorium, MIOT International, Chennai, India.
